

The screenshot shows the LibreELEC Settings menu. The left sidebar has the following options:

- System
- Updates
- Network
- Connections** (highlighted in blue)
- Bluetooth
- Services
- About

The main content area displays network connection information:

- Wired**: Interface: eth0, State: online, Type: dhcp, Address: 192.168.137.1...

Below this, a sub-section titled "Manage the Ethernet, Wireless and VPN connections available to the system" lists the following connection details:

- Link: Connected
- MAC address: B8:27:EB:44:D0:80
- IP address: 192.168.137.168
- Subnet mask: 255.255.255.0
- Gateway: 192.168.137.1
- Primary DNS: 8.8.8.8
- Secondary DNS: 8.8.4.4

The LibreELEC logo is visible at the bottom left of the screen.
